

Benburb Playing Fields

Trail 2

Can you help us find the answers to the clues to the Benburb Playing Field Trail?

We have developed a trail for you to explore. Using your navigational skills and power of observation, we need you and your friends to locate all 12 clues, answer the questions and solve the final answer.

Using the map, make your way around each of the locations. Each location can be found easily and has a question linked to it.

Answer the question on your sheet. Each shaded letter will be used to make up your final answer. Write the letters on the answer grid. You need to find all twelve clues, to correctly answer the trail.

Remember that you are responsible for the safety of yourself and others in the group while on the trail. Take care, and don't forget to look out for cars when crossing the road. Do not allow your children to go ahead and separate from the group. Remember to respect the privacy and property of others. Before you begin, agree on an emergency rendezvous point should someone become separated or lost.

QUESTIONS

1 Which type of fox is called a cub?

<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
----------------------	----------------------	----------------------	----------------------
